

Use and maintenance

Regular maintenance

Wash the furniture with neutral soap and water, rinse and dry thoroughly. Apply fine transparent car wax on the metal frame to prevent harmful ultraviolet radiation and salt spray to the greatest extent.

How to clean furniture

The leisurely manufactured tools are made of durable extruded polyethylene resin. A mild soap and water solution can be used to remove minor stains and dirt, rinse and dry thoroughly. Use high-quality commercial outdoor furniture cleaners and protective agents to remove mold and heavy stains.

How to clean fabrics

Wash the outdoor mat with mild soap and water, then rinse thoroughly. Stand the end of the mat and let it dry completely. You can remove light stains according to the above method. For mold and heavy stains, remove the cushion cover and use a commercial-quality outdoor fabric cleaner for treatment. Do not dry clean or use washing machines or dryers. When washing, do not use steam to heat or use water with a temperature above 100°F. Do not use bleach. Do not use solvents. Do not use chlorine-containing cleaners.

Daily exposure to intense ultraviolet radiation from sunlight will discolor the mat and reduce the surface finish of the casual furniture. The use of high-quality outdoor furniture covers will extend the service life of furniture. If your weather is harsh in winter, it is best to store furniture in the coldest months.
