

TRI-FLEX® 15

SYNTHETIC ROOFING UNDERLAYMENT

Economical Synthetic Alternative to #15 Felt

Superior performance compared to #15 Felt

Resists blow-offs & tears in windy conditions

From the makers of Grace Ice & Water Shield®, the name that roofing professionals trust

Tri-Flex® 15 is a mechanically-attached, synthetic roofing underlayment. It is designed to overcome the shortcomings of #15 felt while delivering advanced benefits that save the contractor time & labor.

"I install Tri-Flex® synthetic underlayments whenever I install Grace Ice & Water Shield®. I found that Tri-Flex works better than any other synthetic roofing underlayment I've used. The fact that it is a wrinkle free, tear resistant product makes it easy to apply to the deck. I install roofs in the North Shore and South Shore areas of Boston and need materials that can withstand the inclement weather."

— TJ Livingstone, Land Line Construction Inc.

Why Tri-Flex® 15 Roofing Underlayment?

TRI-FLEX® 15

#15 FELT

Light Weight —
Tri-Flex® 15 synthetic underlayment weighs half of #15 felt, enabling fast and easy installation

Roll Coverage 10 SF
Roll Weight 20 lbs

Stronger (10 times) —
Withstands higher wind conditions
Protection against costly repairs

More coverage per roll (2.3 times) —
Increased efficiency
Labor savings

Slip resistant surface —
Provides superior foot traction
Safer installation

Lighter weight —
Fast and easy installation
Saves time & labor costs

100% Recyclable —
Contributes to sustainability & LEED

Vulnerable to wind —
Higher chance for rework

Less coverage
Requires more rolls to cover the same amount of area

Less slip resistant —
Can be slippery when wet

Double weight —
Difficult to handle during installation

Cannot be recycled
