Wooden Crate Disassembly Guide

Disassembly Steps:

1. Wear work gloves before dismantling the crate.
2. Straighten and flatten the bottom of the crate.
3. Be sure to knock all of the retaining clasps on the bottom of the crate.
4. Before opening the crate, please ensure that the clasp at the bottom of the crate is fully open. Do not shake the crate vigorously from side to side while opening. Please take care when lifting the crate over the bath. Ensure that the crate is lifted evenly from both sides.
5. Complete bathtub crate disassembly.

PLEASE BE CAREFUL WHENDISMANTLING THE CRATE

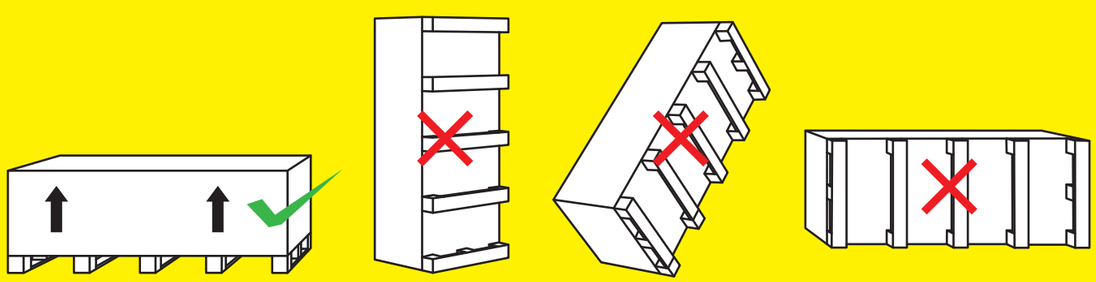

WARNING!

❶ = ❷ = ❸ = ❹ = N

***Note:**

1) To prevent damage, please ensure the box remains flat during movement.
2) Remove the wooden crate by applying even upward pressure on all four sides simultaneously.
