

# 360° THREE-PLANE LEVELING AND ALIGNMENT-LINE LASER

## All-in-One Functionality

The Bosch GLL3-300 Three-Plane Leveling and Alignment-Line Laser is both a complete level as well as an alignment laser. Includes BM1 Positioning Device, laser target plate, AA batteries, and hard case.

## Comprehensive Solution

Three-plane laser projection provides 360-degree squaring and plumbing for a full range of applications. It's ideal for room layout or alignment of conduit, lighting anchoring, flooring, drywall and window framing.

## Bosch Exclusive VisiMax™ Technology

With Bosch's built-in VisiMax™ technology, the GLL3-300 monitors power consumption to maximize line visibility and extend overall battery life of the line laser.

**RANGE (diameter) 200' 60m**

**EXTENDED WORKING RANGE UP TO 300 FT. WITH RECEIVER**

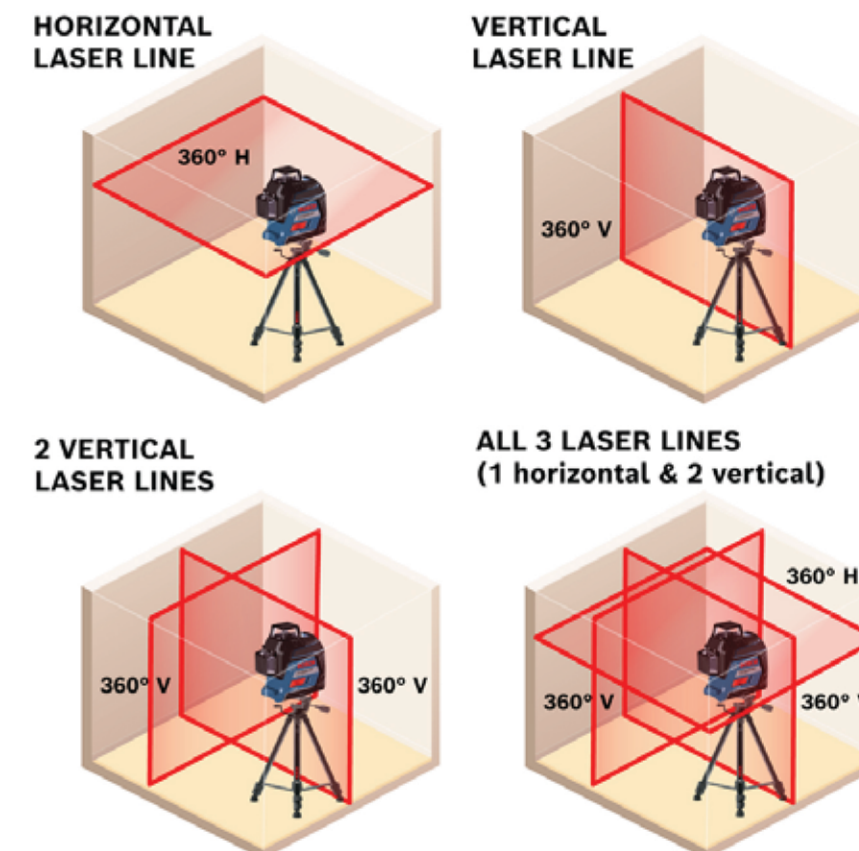

## Bright Extended Range

The GLL3-300 provides highly visible lines, with a visible range of 200 ft. and pulse mode to work with an optional Bosch laser receiver (LR 6 or LR 8) to extend that range to 300 ft.

## High Visibility

Upgraded diode with a brighter beam – delivers a visible range of up to 200 ft. diameter.

## FOUR SELECTION MODES

## 4 Selection Modes

Versatile job layout lines can be projected separately or together for a variety of single and combination alignment applications. Modes include single vertical, single horizontal, 2 vertical, and cross-line with 1 horizontal and 2 vertical.

## Smart Leveling

The Smart Pendulum System self-levels and indicates out-of-level condition to help ensure an accurate layout.

## Smart Pendulum

Self levels and indicates out-of-level condition up to ±4°

## Accurate Setup

BM1 positioning device clips to multiple surfaces, has retractable feet and mounts to walls with screws for easy setup

## Longer Lasting

VisiMax™ technology monitors power consumption to maximize line visibility and extend battery life

## Hard Case

Hard case included provides protection with each leveling laser for extra durability while the tool is being stored.

## Increased Range

Pulse mode – extends the working range up to 300 ft. diameter and/or in bright lighting, using an optional receiver

## IP54 Rated

Robust over-molded construction – IP54 ensures splash water/dust protection for years of dependable operation
