

Woodford Y34 yard hydrant

WATERING AMERICA SINCE 1929.

The Woodford Y34 yard hydrant has been an American icon for over eight decades. Every day, from the suburbs to the most remote farms, from the searing heat of a Texas summer to brutal Dakota winters, Y34s are delivering precious water reliably and efficiently. They won't freeze. Repairs—not that they're often needed—can be made without removing the hydrant. Parts are always available. And, this American icon is made in America. Just like it has been since 1929.
