

FLOOR TRANSITIONS

STAIR EDGING

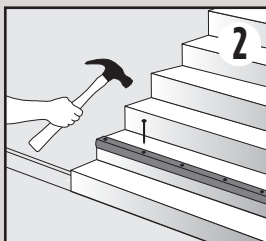

- Protects edge of stair step
- Safety tread design
- Durable aluminum

How-To Install

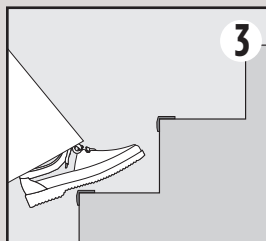

Cut trim to desired length.

Corte la moldura al largo deseado.

Wood Floors: Use provided fasteners. **Concrete Floors:** Install with provided fasteners and wood pegs (sold separately).

Piso de madera: Use los sujetadores provistos. **Pisos de concreto:** Use los sujetadores provistos con tarugos de madera (se venden por separado).

Protects stair step edge and helps to prevent slipping.

Protege el borde de los escalones y ayuda a evitar resbalones.

NOTE: When hammering down fasteners, protect nail heads from chipping by placing clear tape over the heads. Replace tape for each screw nail installed.

NOTA: Al martillar los sujetadores, proteja las cabezas de los clavos para que no se astillen colocando cinta transparente sobre las cabezas. Reemplace la cinta para cada clavo de tornillo instalado.
