Lighting
Plants vary in their lighting requirements. Refer to plant tags for specific sun or shade needs.

Watering
Let mix dry to the touch between waterings. Do not allow plants to sit in drainage water. Outdoor container plants require frequent watering – as often as once per day in hot, dry conditions. To take the guesswork out of watering try Miracle-Gro® Moisture Control® Potting Mix!

Repotting
To avoid soil compaction and replenish nutrients, all container plants should be repotted annually with fresh Miracle-Gro® Potting Mix.
