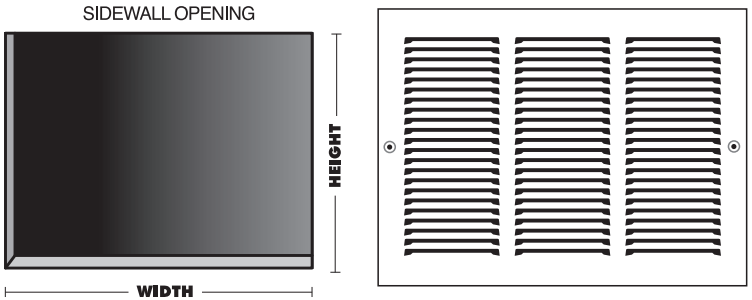
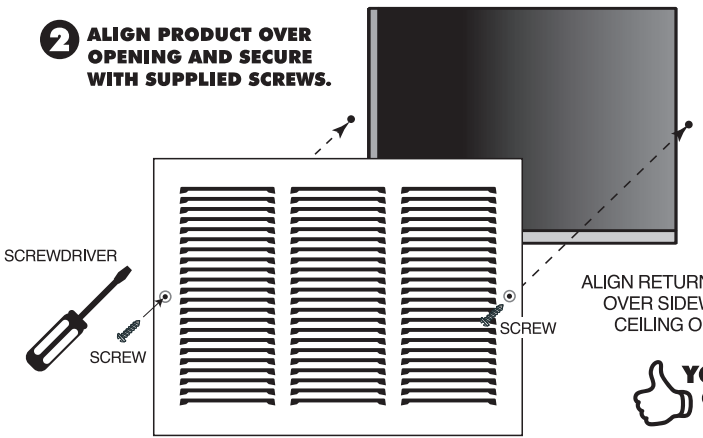
MEASURING TIP: **MODELS 170•173•270 RETURN AIR GRILL.**

1 MEASURE DUCT OPENING.



2 ALIGN PRODUCT OVER OPENING AND SECURE WITH SUPPLIED SCREWS.



YOU'RE DONE. GREAT JOB!

For Sidewall or Ceiling Applications

MODELS 170 •173 •270 RETURN AIR GRILL INSTALLATION INSTRUCTIONS:

STEP ONE:

First measure the duct opening on the wall orceiling where the 170 model will be placed on. NOTE: Remember to measure the duct openingon the wall not the model itself

*(Example: If the duct **opening** measures 14 x 10 then use Model 170 14 x 10. The outside dimension of the product always measures larger than the actual duct opening.)*

STEP TWO:

Place the 170 Model over the duct opening. Align the product so that the air vents are centered over the duct opening. Using a screwdriver, secure product onto sidewall or ceiling using supplied screws.
