

VEVOR 16A Level 1+2 Portable EV Charger

VEVOR®

4-LEVEL CURRENT ADJUSTMENT

4 Modes: 8A/10A/13A/16A

APP Adjustment

Manual Adjustment

The portable EV charger is compatible with most electric vehicles and plug-in hybrid cars that meet the J1772 standard. With its 4-level current adjustment(8A, 10A, 13A, 16A), you can spend more time heading out for fun and less time waiting around when you are out on an adventure and camping.

100% COPPER WIRE TPU CABLE

Faster & More Secure

The cable interior is made of high-quality copper wire, ensuring low resistance and excellent conductivity while generating minimal heat. The thickened TPE flame-retardant external protective jacket provides enhanced security and stability during charging.

FEARLESS OF HARSH ENVIRONMENTS
More peace of mind when charging outdoors

IP66 Waterproof

Withstand -30°C

Withstand 45°C

With IP66 waterproof and dustproof, this charging cable can be used from -30°C to 45°C. Whether it's thunderstorms, high temperatures, or snowfall, you can charge your vehicle securely without any worries.

COMPLIANT WITH ETL CERTIFICATION STANDARDS
