

Thank You

for bringing me home!

Spruce Me Up

I've been in a dark box traveling. Here are some quick tips to get me settled:

- Remove yellow leaves or broken stems.
- If my soil is dry, give me a drink of water.
- Set me in the right light.

PLANT CARE

Fern

Light

I like bright, indirect light where I cast a strong shadow at least a couple of hours a day, but don't mind medium light.

Water

I don't want my roots to stay wet, so water me as the surface of the potting soil starts to dry.

Food

I don't need a lot of fertilizer, so you can feed me once or twice in spring and/or summer. You can feed me more often if you want me to grow faster.

Features

My frilly texture makes me a classic and I look good paired with every other houseplant.

Growing tips

Don't let me dry out, otherwise my fronds will go brown. I prefer above-average relative humidity levels.

Give me friends! I play well with:

Calathea , Peace Lily, Fittonia

This plant may have some natural degree of toxicity and may cause discomfort or illness if ingested. Additionally, exposure to the sap of this plant may cause discomfort to individuals with a sensitivity to it upon contact. Grown for ornamental purposes and not intended for human or animal consumption.
