# Garage Parking Sensor

Easy safety system helps you safely park your vehicle

**DIY**

EASY INSTALLATION

WIRELESS

ULTRASONIC SENSORS

PARK ASSIST

4X AA

- Indicates how close your car is to a garage wall & other objects to prevent damage to your vehicle & property
- Set the safety distance to 1, 2, or 3ft / 30, 60 or 90cm away from wall & indicator lights will change color depending on how close you are to that distance
- Green Light = Car is in detection zone  
Orange Light = Car is within the slow down zone distance limit  
Red Light = Car is at safety limit in stop zone
- Easy to use & set up - offers parking assistance for vehicles which may not be fitted with car parking assistance systems
- Main unit is attached to a wall at fender/bumper level & attached indicator light is set to windscreen level for visibility
- Completely wireless using 4 x AA batteries (not included) & indicator light flashes red when batteries need replacing
