With Watering Cans

Con regaderas

Mix 1 1/2 tablespoons (the large end of the enclosed scoop) per 1 1/2 gallons of water, in a watering can. For best results, soak the soil at the base of plants every 7 to 14 days.

Mezcle 1 1/2 cucharadas (el lado grande de la cuchara incluida) por cada 1 1/2 galones de agua en la regadera. Para obtener mejores resultados, empape la tierra en la base de las plantas cada 7 a 14 días.

With Miracle-Gro® Garden Feeder™

Con el aplicador Miracle-Gro® Garden Feeder™

For larger outdoor gardens, fill the feeder jar to the top of the label. See feeder package for additional instructions. For best results, use every 7 to 14 days; just soak the soil at the base of each plant to fertilize the roots. 3 lb feeds approximately 1,200 square feet of garden area. Please use only as directed.

Para jardines exteriores más grandes, llene el bote del aplicador hasta la parte superior de la etiqueta. Consulte el paquete del aplicador para obtener instrucciones adicionales. Para obtener mejores resultados se debe usar cada 7 a 14 días; solo empape la tierra en la base de cada planta para fertilizar las raíces. 3 lb fertiliza aproximadamente 1,200 pies cuadrados de área de jardín. Debe usarlo únicamente como de indica.
