

Use and Care Guide

Thank you for purchase of Tvilum furniture! To maintain your furniture we recommend following these tips:

- Periodically rub a soft cloth over your furniture's surface to remove dust. Repeat a few times each month to keep your Tvilum furniture looking its best!
- Do not use chemicals to clean your furniture as they can damage the surface.
- Always remember to lift objects rather than sliding them across the finish.
- Liquid spills should be blotted rather than wiped. Always dry the surface immediately with a clean, soft cloth to avoid water spots.
