

Air Conditioner Cover User Manual

Product Overview:

Our air conditioner cover is designed to provide comprehensive protection for your outdoor AC unit, safeguarding it against harsh weather conditions and extending its lifespan. Made from durable 600D polyester canvas with a waterproof backing, this cover is tough enough to repel rain, snow, dust, leaves, and bird droppings, while structured air vents ensure adequate ventilation.

Installation Instructions:

- **Measure Your AC Unit:** *Before installing the cover, measure the width and depth of your outdoor AC unit to ensure it fits within the cover's dimensions of up to 30''(W)x30''(D).*
- **Prepare the Cover:** *Lay the cover flat on a clean, dry surface. Make sure all plastic clips and elastic draw cords are securely attached and in good condition.*
- **Position the Cover:** *Place the cover over the AC unit, ensuring it covers the entire unit, including the top and sides. Adjust the cover as needed to achieve a snug fit.*
- **Secure the Cover:** *Use the plastic clips to attach the bottom of the cover to the AC unit. Then, pull the elastic draw cords tight and secure them to ensure the cover stays in place, even during high winds and severe weather.*

Maintenance Tips:

- *Regularly inspect the cover for any signs of wear or damage. Replace the cover if necessary to maintain its protective qualities.*

- *Clean the cover with a mild detergent and soft cloth. Avoid using harsh chemicals or abrasive materials that may damage the fabric.*
- *Store the cover in a cool, dry place when not in use to prevent mildew and deterioration.*

Removal Instructions:

1. **Unsecure the Cover:** *Loosen the elastic draw cords and detach the plastic clips from the AC unit.*
2. **Lift the Cover:** *Carefully lift the cover off the AC unit, folding it neatly for storage.*
