Prep For Success

SURFACE PREP FOR CONCRETE & WOOD

1. **Remove Peeling Coatings:** Strip old and peeling coatings using a paint stripper.
2. **Clean and Etch:** Concrete should be cleaned and etched with muriatic acid for better adhesion. Wood should be cleaned using No. 63 BEHR PREMIUM® All-In-One Wood Cleaner.
3. **Rinse & Dry:** Thoroughly rinse all surfaces with water and allow it to dry.
4. **Prime:** For concrete surfaces, use No. 880 BEHR PREMIUM® Concrete & Masonry Bonding Primer. For exterior wood surfaces, use No. 436 BEHR PREMIUM® Multi-Surface Stain Blocking Primer & Sealer.

BEHR PREMIUM® FLOOR COATINGS

LOW-LUSTRE ENAMEL

PORCH & PATIO FLOOR PAINT

HEAT-REDUCING TECHNOLOGY

HELPS LOWER SURFACE TEMPERATURE UP TO 15°F*

PROJECT CHECKLIST

- ☐ Plastic Sheet Cover
- ☐ Painter's Tape
- ☐ Broom
- ☐ Hose/ Plastic Water Can
- ☐ Stir Stick
- ☐ Stiff Bristle Brush (Non-Metal)
- ☐ Floor Scraper
- ☐ Extension Pole
- ☐ Roller and Frame
- ☐ Synthetic Brush
- ☐ Wood or Concrete Cleaner
- ☐ Wood or Concrete Primer

*Reduces surface temperature under intensive sunlight on wood and concrete surfaces when compared to similar colored products made with standard colorants. Temperature reduction can vary based on factors such as color, ambient temperature, time of day, substrate, and the level of direct sunlight the surface receives. Must use BEHR® Heat-Reducing color palette. Caution: Painted surfaces may still remain hot.

Colors shown on this printed piece may vary slightly from actual product due to aging, lighting, and printing process.
