

# The Pennington® Vertical Gardening System

## Customize Your Space

- 1 Determine width and height for your space.

- 2 Choose your structural elements.

- 3 Design with containers and accessories.

## The Garden You Want in the Space You Have

- Each component tested for stability, weather and optimal plant growth
- Structures hold between 200–300 lbs.
- Planters feature drainage for plant health
- Accessories provide a home for your most trusted garden tools
