LIGHT

Grow Christmas cactus in bright light for the most blooms. It will grow in medium or low light, too --- but will have fewer blooms.

WATER

Water Christmas cactus when the top inch or two of the potting mix dries out.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

You can find Christmas cactus in a wide variety of colors, including pink, red, scarlet, orange, gold, cream, and white.
