

BUSHEL *and* **BERRY**
PLANTING INSTRUCTIONS

PLANTING INSTRUCTIONS

BLACKBERRY and RASPBERRY

1. Choose a container (16" or larger in diameter is ideal).
2. Fill $\frac{2}{3}$ of the container with regular potting soil.
3. Remove plant from pot and use your hands to gently loosen the roots.
4. Place the plant into container and fill with regular potting soil.
5. Water and place in a sunny spot.

BLUEBERRY

1. Choose a container (12-16" in diameter is ideal).
2. Fill $\frac{2}{3}$ of the container with regular potting soil.
3. Use a soil acidifier product as recommended, or use a high acid potting soil for the remaining $\frac{1}{3}$. Mix together.
4. Remove plant from pot and use your hands to gently loosen the roots.
5. Place the plant into container and fill with regular potting soil (if needed).
6. Water and place in a sunny spot.
