TOOLS REQUIRED

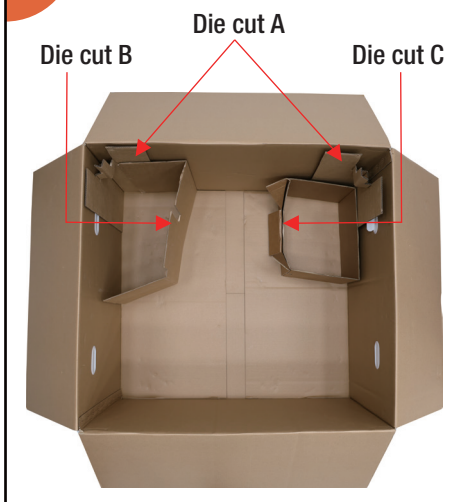

M5 hex wrench (included)

1

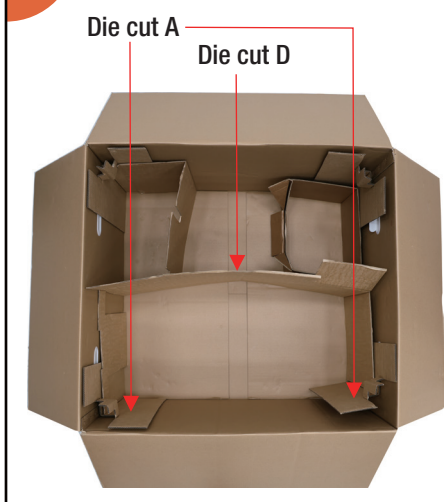

Make sure to have the handles of the master box oriented to the left and right. Left, right, front, and back positions of the box are labeled in the figure.

2

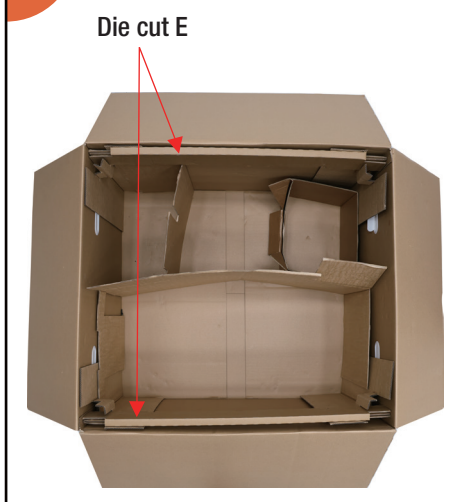

Place Die cut A in the Back Left and Back Right corners of the box. Then place Die cut B into the Back Left corner of the box. Place Die cut C into the Back Right corner of the box as shown.

3

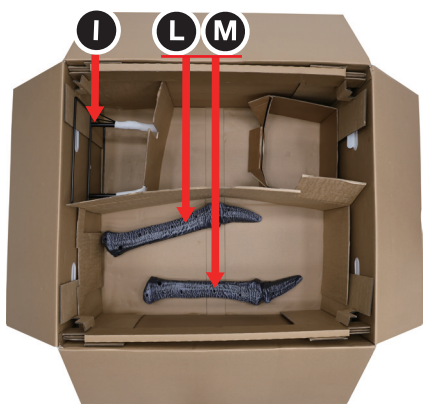

Place the remaining Die cut A parts into the Front Left and Front Right corners of the box. Then place Die cut D in the middle of the box in front of Die cut B and C as shown.

4

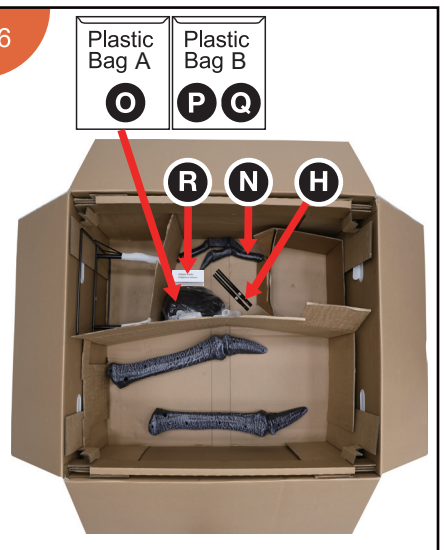

Place 2 Die cut E parts into the box so one is at the Front and the other is at the Back as shown.

5

Place the Base (I) into the Back Left corner of the box so that the bottom of the Base (I) makes contact with the Left interior wall. Then place one of each of the Third Left and Right Leg Segments (L, M) into the Front area of the box.

6

Place the Fur Covers (O) into Plastic Bag A and place the Stakes (P) and the Screws (Q) into Plastic Bag B. Place Plastic Bag A, Plastic Bag B, Support Poles (H), Mandibles (N), and Adapter (R) into the empty area in the back mid section of the box as shown.

7

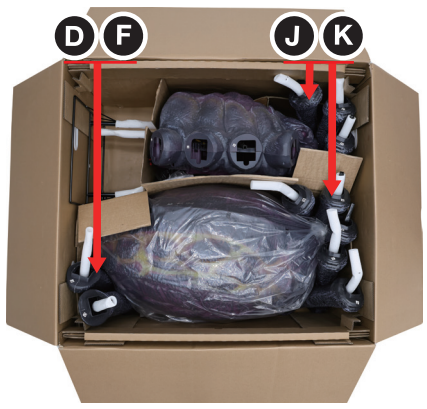

Place the Abdomen (B) into the available polybag and place in the front area of the box on top of the Third Left and Right Leg Segments (L, M).

8

Place the Head (A) into the Back Right area of the box over Die cut C as shown.

9

Place the Front First Left Leg Segment (D) and one of the First Left Leg Segments (F) into the Front Left corner of the box. Then fit the Second Left and Right Leg Segments (J, K) into the areas available at the right side of the box as shown.

10

Place the Front First Right Leg Segment (E), remaining First Left Leg Segments (F), and First Right Leg Segments (G) into the space available at the Back Left corner of the box. Place the Die cut F parts at the Left and Right side of the box as shown.

11

Place the remaining Third Left and Right Leg Segments (L, M) into the box in the available spaces as shown.

12

Close the box and seal with packing tape. Store your prop away from heat and moisture.
