

Product Features

The Whynter Stainless Steel Compressor Wine Refrigerator offers premium quality and innovative design ideal for your wine collecting needs. Whether for the enthusiast or the connoisseur, the single zone compressor wine refrigerator provides premium and advanced wine storage functionality.

This wine storage system can hold up to 166 standard 750ml wine bottles. The powerful compressor cooling process offers optimum temperatures (low 40°F to mid 60°F) for red, white, and sparkling wines. The front ventilation design of this unit allows for flush with cabinet installation or simply freestanding usage.

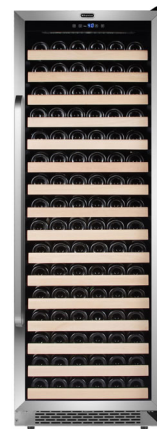

The premium appeal of the Whynter BWR-1662SD features a substantial stainless steel trimmed door accented with a luxurious curved handlebar. The 16 removable wooden flat slide out shelves offer high-end functionality and safety for your prized wine collection, plus a wire display shelf that lets you proudly display or safely store opened bottles.

- Capacity: 166 standard 750ml wine bottle
