

# Yardistry Gate Replacement Process

---

All Yardistry Gates come as a single pre-fabricated unit, there are no specific replacement parts to list for these products. In the event that the gate you have purchased is missing a component/piece please take a picture and send it to **support@yardistrystructures.com** or contact The Home Depot about this problem. Upon receiving this image you will either be sent a replacement gate or the specific piece that is missing.
