

Motion Activated LED Night Light

Features

- Sleek, low-profile design fits into the décor of any space and leaves the additional outlet free
- No need to turn on all the lights at night – the automatic sensor with 120° of motion detection provides just enough light to get you where you need to go and get you back to bed
- Soft fading light won't disrupt the sleep of others, making it ideal for hallways, bathrooms, bedrooms, and living rooms
- Long-lasting integrated LEDs turn on only in darkness, providing years of light
