

The superior qualities of the Cedar Series feeders and houses include:

Insect, squirrel and rot resistant premium cedar; Rust-free powder-coated galvanized metal Fresh Seed™ trays; Durable vinyl-coated hanging wires; and Water-based preservative/anti-mold and mildew agent.

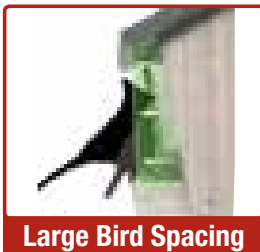

Rust-free hardware includes stainless steel screws and wire mesh, aluminum hinges, and powder-coated seed ports

Wide opening for easy filling and less spilling

Our cedar feeders offer a **Fresh Seed™** tray which allows for maximum water drainage and air flow to keep the seed fresh. And because clean feeders are important for healthy backyard bird flocks, all of Nature's Way Bird Products' **Fresh Seed™** trays are easily removable for quick and easy cleaning

All of our Cedar Series feeders include extra spacing for both small and large birds for viewing more birds at your feeder

The unique seed diverter shape in the **Fresh Seed™** tray makes seed flow to the sides where birds feed

Keeps seed fresh by allowing water to drain, and air to flow freely

Nature's Way Bird Products is the industry leader by backing their Innovative and Quality Cedar products with the strongest warranties in the industry – a 5 YEAR warranty on Cedar Series products.

Innovative Design

- Removable **Fresh Seed™** tray with seed diverter and rain drainage; made of powder-coated galvanized steel
