

Rustic Barnwood Frequently Asked Questions

Can I use Rustic Collection shiplap on my bathroom walls?

Yes, these boards can be used on walls within a bathroom. We recommend you seal the boards with a wood protector sealant to protect them from moisture.

What color stain can I use to match?

Rustic Collection products go through a proprietary color formulation process; therefore, an exact paint match is difficult. Consult with a paint professional at your local retailer to specify a custom color that suites your needs.

Do these have rabbet joints (or any joints) cut into them?

When installed horizontally Rustic Collection shiplap features a rabbet joint on both top and bottom edges of the board allowing piece to snugly fit together. The board ends do not have a pattern and butt directly together without overlap.

Is the board smooth on the opposite side?

Both sides of the board feature a rough sawn texture that helps mimic the natural texture and patina of aged barn wood.

What is the actual width that will be visible?

The width of the 1x6 shiplap board is 5.375 in. with a thickness of .625 in. and an exposed face of 4.625 in. The width of the 1x8 shiplap board is 7.0625 in. with a thickness of .625 in. and an exposed face of 6.44 in. The width of the trim board is 3.5 in. with a thickness of .75 in.
