

BOSCH

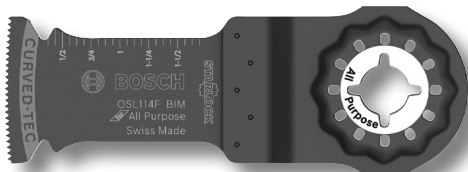

PERFORM TO A NEW STANDARD

Stronger grip. Better performance. Greater versatility.

Bosch Starlock® oscillating multi-tool accessories feature a quick-change interface with snap-in blade connection and no-touch blade ejection. The 3-D Fit of the Bosch Starlock® interface provides a higher torque transfer and reduced vibration, delivering power and performance. Bosch offers the broadest and most versatile line of multi-tool accessories available. Standard Starlock® blades are backward compatible with OIS® systems as well.
