

## WOOD-LIKE FIBERGLASS DOORS

Our Fiberglass Doors feature a mahogany wood textured surface that looks like real wood without the added maintenance. The fiberglass composite surface is paintable or stainable in your color preference.

## ENGINEERED FOR LONGEVITY

Built for strength and longevity, our fiberglass doors feature engineered stiles and rails with a high-density foam interior, providing superior insulation against sound and temperature. Tempered, double-paned Low-E glass windows provide natural light and additional insulation.

## NO OVERHANG REQUIRED

The wood like composite fiberglass surface ensures your door will be a sustainable option when it comes to wear and tear. No overhang? No problem, we provide a Limited 1-Year Warranty on all of our Fiberglass Doors regardless of overhang on your home.

## ANATOMY OF A FIBERGLASS DOOR

- ① ALUMINUM FRAME
- ② LOW-E GLASS
- ③ INSULATING FOAM CORE
- ④ ENGINEERED STILES
- ⑤ WOOD TEXTURE FIBERGLASS
- ⑥ ENGINEERED RAILS
