

Installation Guide

Amamoi Arch Trellis for Climbing Plants

Thank you for choosing the Amamoi Arch Trellis. This trellis is designed to support climbing plants and add beauty to your garden. Please follow the instructions below for quick and safe assembly.

Tools Required:

- No tools required for standard assembly.

Package Contents:

- Arch frame tubes
- Support legs
- Cross clips
- Plastic clasps
- Trellis net
- Assembly instructions

Assembly Instructions:

- 1 Lay out all parts on a flat surface and check against the package contents list.
- 2 Insert the support legs into the ground at the desired location.
- 3 Connect the arch frame tubes to form the A-frame arch shape.
- 4 Secure the frame using the metal cross clips provided.
- 5 Attach the plastic clasps to hold the trellis net firmly in place.
- 6 Adjust spacing if needed, then ensure all connections are tight and stable.
- 7 Plant your climbing plants at the base of the trellis and guide them onto the net as they grow.

Safety Tips:

- Install the trellis on level ground for maximum stability.
- Check all connections regularly, especially during the growing season.
- Do not exceed the recommended weight capacity of the trellis.

With proper installation and care, your Amamoi Arch Trellis will provide lasting support for your plants and decorative appeal for your garden.
