CRABGRASS DEFENDER LAWN FOOD 10-0-2

At Purely Organic Products we believe garden products 🌿 and fertilizers should be good for plants and easy for 💚 gardeners too. Suitable for all types of grass, Crabgrass Defender Lawn Food is enhanced with soybean oil 🛢️ to help control crabgrass & common broadleaf weeds. It also fertilizes to provide the nutrients needed for a lush 🌱 green lawn for you and your family.

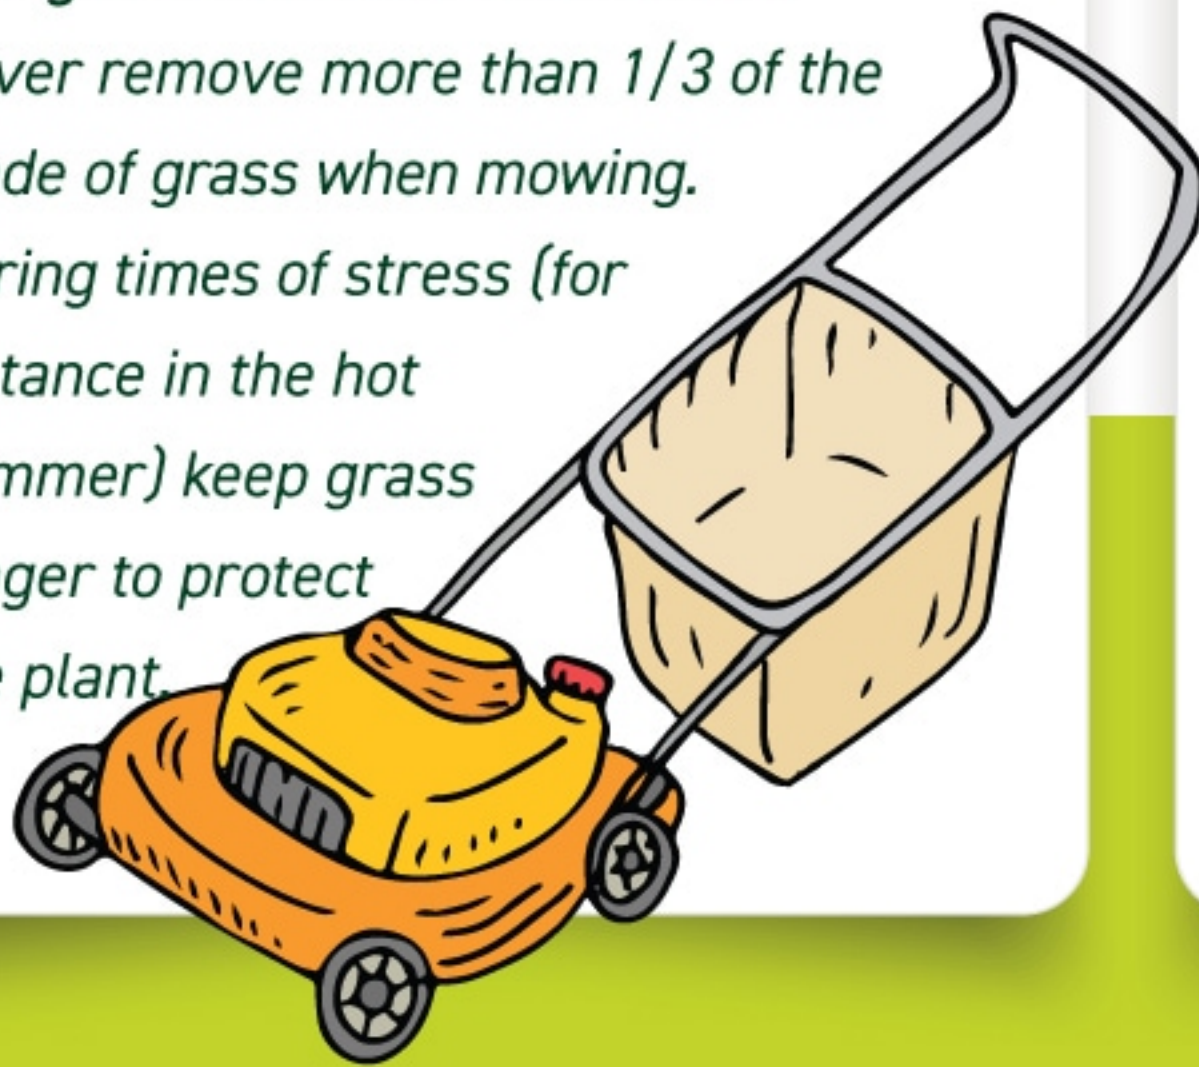

A WELL FED LAWN IS A HAPPY LAWN
Just like you, your lawn needs nutrient rich food to grow and flourish. We recommend feeding about four times a year for a lush, green lawn. For best results, apply Crabgrass Defender Lawn Food in early summer before crabgrass emerges.

WATER WELL & OFTEN
Well fed lawns are more efficient at absorbing water and nutrients. Water your lawn every few days to provide approximately 1" of moisture (including rainfall) per week. (A typical sprinkler takes 3-4 hours to provide 1" of water.)

MOW LIKE A PRO

If your grass is tall, consider mowing 1-2 days before the application of Crabgrass Defender Lawn Food. Never remove more than 1/3 of the blade of grass when mowing. During times of stress (for instance in the hot summer) keep grass longer to protect the plant.

FIND THE BEST SOLUTION
Select the product that fits for you lawn's specific needs. In addition to our original formula Lawn Food, Purely Organic Products offers Weed & Feed, Grub & Feed, and Crabgrass Defender Lawn Food for problem lawns.

DIRECTIONS FOR USE*

This combination product is designed to feed your lawn while helping to prevent crabgrass and common weed infestations including Annual Bluegrass, Barnyard Grass, Black Medic, Black Nightshade, Buckhorn Plantain, Catchweed Bedstraw, Common Lambsquarters, Curly Dock, Dandelion, Giant Foxtail, Green Foxtail, Large Crabgrass, Orchard Grass, Purslane, Quack Grass, Redroot Pigweed, Shattercane, Smooth Crabgrass, Velvetleaf, Woolly Cupgrass, and Yellow Foxtail. When used as directed it will not harm established turf grass, lawns and gardens. DO NOT APPLY TO FOOD CROPS.

Choose the Right Day: For best results apply Crabgrass Defender Lawn Food on a calm day when no heavy rains are expected. This product should be applied in the early summer before crabgrass emerges; and in the fall as broadleaf weeds begin to establish root systems in preparation for spring growth.

Set Your Spreader: Set your drop or rotary spreader to deliver fertilizer at a rate of 4-8 lbs. per 1,000 sq. ft. of lawn. Individual spreader settings will vary; but common settings are listed below. (Visit GrowPOP.COM or refer to your spreader's instructions for additional information.)

Earthway® & Similar Broadcast (Rotary) Spreaders	15.0
Scotts® Basic, Turf Builder® EdgeGuard®, LawnPro® & Similar Broadcast (Rotary) Spreaders	6.0
Scotts® EasyGreen® & Similar Broadcast (Rotary) Spreaders	26.0
Vigoro & Similar Broadcast (Rotary) Spreaders	5.0
Scotts® Turf Builder® Classic, EverGreen®, AccuGreen® & Similar Drop Spreaders	7.0

Apply: FOR LAWNS & TURF GRASS, work back and forth in steady rows, applying evenly across the entire treatment area. You may seed your lawn immediately after applying this product. FOR GARDEN BEDS, prepare beds by turning under or pulling established weeds prior to application. Sprinkle this product around plants after sprouts have true leaves and established root systems. Crabgrass Defender Lawn Food may also be tilled directly into the soil.

Clean Up: Get the most out of your lawn care, and protect the environment, by sweeping excess or stray particles back onto the lawn.

Activate: After application, water lightly to activate. After the initial watering, let the lawn stay dry for 2-3 days for best results. Excessive rainfall or irrigation may require re-application.

CAUTION: KEEP OUT OF REACH OF CHILDREN

***PRECAUTIONARY STATEMENTS**

IMPORTANT ⚠️ This product contains ingredients which may cause skin or eye irritation. Wear gloves to apply this product.

STORAGE AND DISPOSAL 🗑️ Store this package in a dry, safe place, out of reach of children and animals. Keep the bag tightly closed, away from moisture and light. When no longer needed, dispose of contents and packaging in accordance with municipal regulations.

FIRST AID 🆘 **AFTER SKIN CONTACT:** Rinse affected areas with soap and water after handling or contact. **AFTER EYE CONTACT:** Rinse opened eye for at least 15 minutes under running water. If symptoms persist, consult a doctor. **IF SWALLOWED:** Drink plenty of water and consult a physician. Have the product container or label with you when calling a poison control center or physician. Contact poison control at 1-800-222-1222

ALLERGY WARNING 🌾 This product contains corn and soy based ingredients.

ENVIRONMENTAL NOTES 🌿 To protect the environment, apply only to actively growing turf. Do not apply near water, storm drains or drainage ditches; and do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk, or street, back onto your lawn.

FLORIDA RESIDENTS PLEASE NOTE 📋 Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use. No more than 2 lbs. of total nitrogen per 1,000 sq. ft., per application, may be applied during the spring or summer. No more than 1 lb. of total nitrogen per 1,000 sq. ft., per application, may be applied during the fall or winter. **IN NORTH FLORIDA:** This product may be applied a maximum of 4 times per year. No application of fertilizer may be applied in the winter. **IN CENTRAL AND SOUTH FLORIDA:** This product may be applied a maximum of 6 times per year.

INSTRUCCIONES DE USO*

Este producto combinado está diseñado para alimentar su césped mientras ayuda a prevenir el pasto de cangrejo y las infestaciones de malezas comunes, incluyendo pasto azul anual, pasto de corral, Black Medic, Black Nightshade, Buckhorn Plantain, Catchweed Bedstraw, Common Lambsquarters, Curly Dock, Dandelion, Giant Foxtail, Green Foxtail, Gran Crabgrass, Orchard Grass, Verdolaga, Quack Grass, Redroot Pigweed, Shattercane, Smooth Crabgrass, Velvetleaf, Woolly Cupgrass y Yellow Foxtail. Cuando se usa según las instrucciones, no dañará el césped, el césped ni los jardines establecidos. NO APLICAR A CULTIVOS ALIMENTARIOS.

Elige el día correcto: Para mejores resultados, aplique en un día tranquilo cuando no se esperan fuertes lluvias. Este producto debe aplicarse a principios del verano antes de que surja el cangrejo; y en otoño, cuando las malezas de hoja ancha comienzan a establecer sistemas de raíces en preparación para el crecimiento de la primavera.

Configure su esparcidor: Configure su esparcidor para entregar a un ritmo de 4-8 libras. por 1,000 pies cuadrados. La configuración individual variará; pero las configuraciones comunes se enumeran a continuación.

Earthway® & Similar Diseminar Espareidores (Giratorios)	15.0
Scotts® Basic, LawnPro® & Similar Diseminar Espareidores (Giratorios)	6.0
Scotts® EasyGreen® & Similar Diseminar Espareidores (Giratorios)	26.0
Vigoro & Similar Diseminar Espareidores (Giratorios)	5.0
Scotts® Turf Builder® Classic, EverGreen®, AccuGreen® & Similar Esparcidores de Descarga	7.0

Aplicar: PARA CÉSPEDES Y HIERBA TURF, trabajo de ida y vuelta en hileras, aplicando uniformemente en el área de tratamiento. Puede sembrar césped inmediatamente después de la aplicación. PARA CAMAS DE JARDÍN, prepárese volteando o tirando de las malezas establecidas. Espolvoree este producto alrededor de las plantas después de que los brotes tengan hojas verdaderas y raíces establecidas. Crabgrass Defender Lawn Food también se puede labrar directamente en el suelo.

Limpiar: Aproveche al máximo el cuidado del césped barriendo el exceso o las partículas extraviadas nuevamente sobre el césped.

Activar: Después de la aplicación, riegue ligeramente para activar. Después del riego inicial, deje que el césped permanezca seco durante 2-3 días para obtener mejores resultados. La lluvia o el riego excesivos pueden requerir una nueva aplicación.

PRECAUCIÓN: MANTENGA FUERA DEL ALCANCE DE LOS NIÑOS

***CONSEJOS DE PRUDENCIA**

IMPORTANTE ⚠️ Este producto contiene ingredientes que pueden causar irritación en la piel o los ojos. Use guantes para aplicar este producto.

ALMACENAMIENTO Y ELIMINACIÓN 🗑️ Guarde este paquete en un lugar seco, seguro, fuera del alcance de niños y animales. Mantenga la bolsa bien cerrada, lejos de la humedad y la luz. Cuando ya no sea necesario, elimine el contenido y el embalaje de acuerdo con las regulaciones municipales.

PRIMEROS AUXILIOS 🆘 **DESPUÉS DEL CONTACTO CON LA PIEL:** Enjuague las áreas afectadas con agua y jabón después de manipularlas o contactárlas. **DESPUÉS DEL CONTACTO CON LOS OJOS:** Enjuague el ojo abierto durante al menos 15 minutos con agua corriente. Si los síntomas persisten, consulte a un médico. **EN CASO DE INGESTIÓN:** Beba mucha agua y consulte a un médico. Tenga el envase o la etiqueta del producto con usted cuando llame a un centro de control de intoxicaciones o a un médico. Póngase en contacto con el control de intoxicaciones al 1-800-222-1222

ADVERTENCIA DE ALERGIA 🌾 Este producto contiene ingredientes a base de maíz y soja.

NOTAS MEDIOAMBIENTALES 🌿 Para proteger el medio ambiente, aplíquelo solo a césped en crecimiento activo. No aplique cerca del agua, desagües pluviales o zanjas de drenaje; y no aplique si se esperan fuertes lluvias. Aplique este producto solo a su césped y barra cualquier producto que caiga en el camino de entrada, la acera o la calle, nuevamente sobre su césped.

RESIDENTES DE LA FLORIDA TENGA EN CUENTA 📋 Consulte con su Agencia de Extensión Cooperativa local para obtener información específica sobre las mejores prácticas locales de gestión del césped. Consulte con el gobierno de su condado o ciudad para determinar si existen regulaciones locales para el uso de fertilizantes. Cuando use este producto en Florida: no más de 2 libras del nitrógeno total por 1,000 pies cuadrados, por aplicación, puede aplicarse durante la primavera o el verano. No se puede aplicar más de 1 libra de nitrógeno total por 1,000 pies cuadrados, por aplicación, durante el otoño o el invierno. En el norte de Florida: este producto puede aplicarse un máximo de 4 veces al año. No se puede aplicar fertilizante en el invierno. En el centro y sur de Florida: este producto puede aplicarse un máximo de 6 veces al año.
