

## CARE AND MAINTENANCE

---

- For future countertop maintenance be sure to use only products safe for cleaning the stone. Warm water and a soft, damp cloth with a small amount of mild, bleach-free, non- abrasive detergent does the trick for everyday cleaning.
- The ceramic sink can be cleaned using standard ceramic cleaning agents available at your local supplier.

### IMPORTANT

- Shade variations and patterns are an inherent characteristic of stone (e.g. granite, marble, engineered stone). Stone tops will vary from product to product. Use caution placing items such as soap or any fragranced material on the stone surface. Use a soap dish, coaster or similar item to protect the surface if placing any soap or fragranced products on the stone.
- If soap or fragranced products come in contact with the stone top, rinse the surface with water and dry using a soft non-abrasive cloth.
- **WARNING:** Must use cleaning agents safe for stone. Check your cleaning agents use restrictions before using on any stone. Damage to the stone may result. Vanity top manufacturer not responsible for damage caused by improper cleaning agents or soaps used. Warranty will not cover damage caused by the use of improper soaps or cleaning agents.
- **DO NOT** use products to clean the stone top that contain acetone, lemon, vinegar or other acids as these may cause damage to the stone surface. It is advised that spills or drops of the usual high-staining liquids such as coffee, tea, fruit juice, vinegar, or wine be wiped up right away.
- Periodically reseal the stone top using an appropriate stone sealer available from your local home store. Follow the manufacturer' s directions on how to apply.
