

FEATURES AND BENEFITS

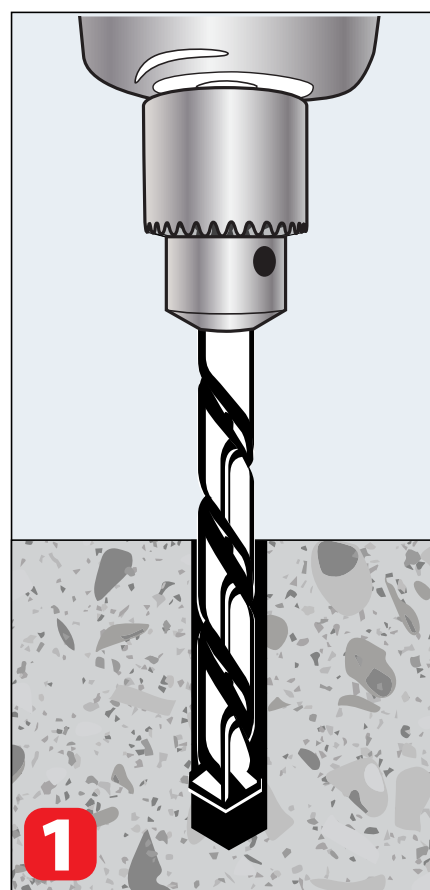

- Anchor size = Hole size
- Fast & easy to install
- Full thread design
- Chamfered head
- Taper shape clip

IDEAL FOR:

- Architectural facades
- Ornamental fixtures
- Railings
- Satellite dishes
- Signs

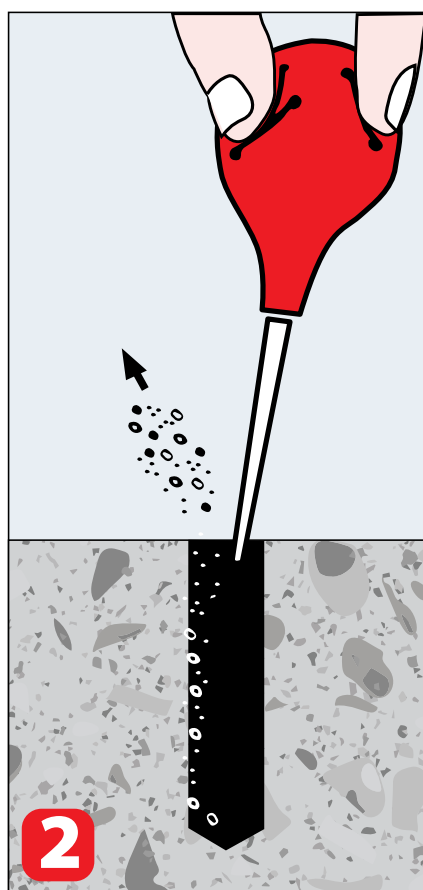

The Parawedge™ Anchor Stud is a cold-formed expansion anchor designed for superior holding power.

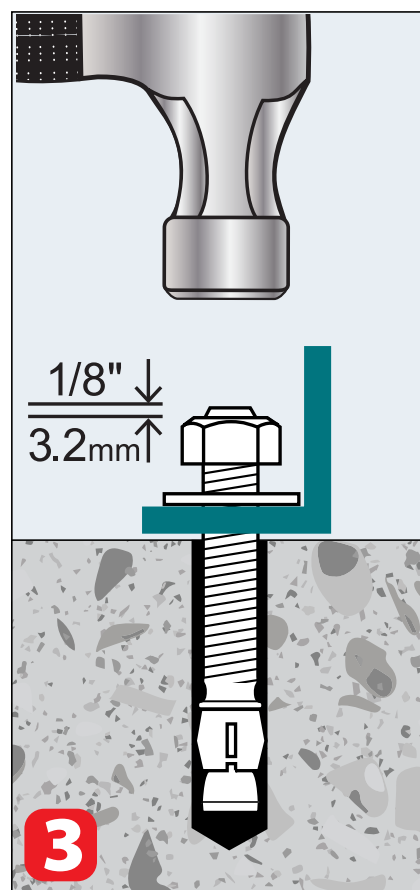

DRILL

Use a carbide bit ANSI B212.15 (-1994) that is the same size as the bolt diameter. Drill hole deeper than bolt embedment (min.0.5 dia.) Do not use core bits. Maintain accurate hole size.

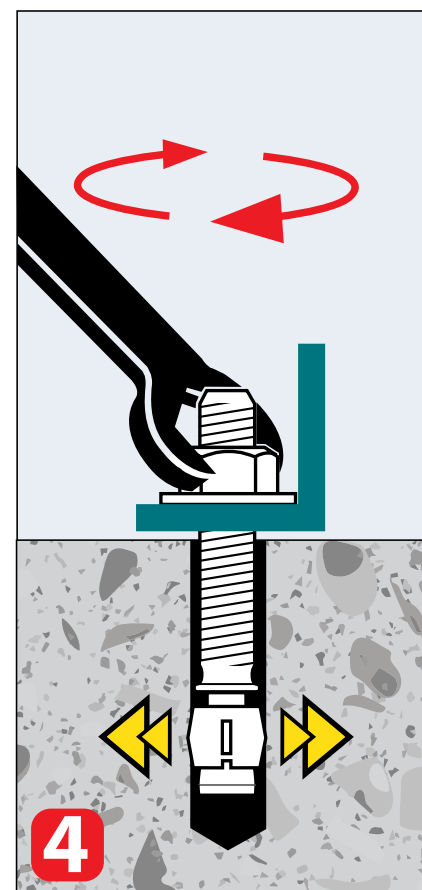

CLEAN

Clean hole using a dust blower or compressed air.

INSERT

Add washer and thread nut 1/8" from the top of bolt. Drive bolt into hole through item to be fastened.

TIGHT

To set, tighten nut 3 to 4 full turns or consult chart for guide installation torque.
