Net Weight:	1,010 lbs.
Tiers:	6
Units per Tier:	7
Units per Pallet:	42
Pallets per TL:	34

HIGH HEAT, AROMATIC & INSECT REPELLENT!

Adds a Comforting & Nostalgic Quality to any Fire!

EcoForest presents Piñon Aromatic Firewood, sourced from the deserts of the North American Southwest, known for its impressive BTU rating and ability to produce an active flame with substantial heat. A favorite among firewood enthusiasts, Piñon is celebrated not only for its warmth but also for its exceptional aroma, which naturally repels mosquitoes and other flying insects. When burned, Piñon offers a distinct, woody aroma with a gentle hint of pine, making it a popular choice for outdoor fires.

EcoForest packages Piñon Aromatic Firewood in its unique bag design. Featuring fishnet sides for ventilation and optimal breath-ability. It's built-in comfort handles and Velcro closure make it reusable as an all-purpose tote bag. Made of UV-resistant material, the top flap adds an extra layer of protection – the perfect solution to transport your firewood.
