SMART WI-FI
OUTLET
START GUIDE

geeni™

Thank you for purchasing your Geeni smart home product. Ready to get started? Download the Geeni app to manage your CURRENT (and all other Geeni devices) straight from your phone or tablet. Easily connect to your home Wi-Fi and control multiple devices with the touch of your fingertips.

CAUTION:
• Use only copper wire
• Do not operate with the faceplate removed
• This product should only be installed by a qualified electrician and in compliance with local and national electrical codes.
• Indoor use only.

WARNING: RISK OF ELECTRIC SHOCK OR FIRE. Please follow all safety instruction before installing, servicing, or removing your CURRENT.

STEP 3
Log into the app.
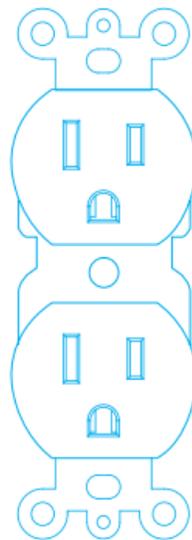

Disconnect all wires.

STEP 3

Connect CURRENT's
neutral wire (white) to
your home's neutral wire.

Connect CURRENT's line
(Black), Neutral (White),
and Ground (Green)
wires as shown .

GREEN/GROUND

BLACK/HOT

WHITE/NEUTRAL
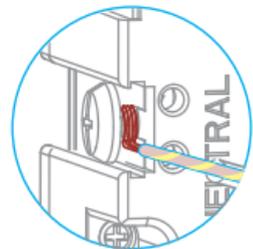

Place stripped wire into
the hole and tighten
down the screw

STEP 4

A
Use the two A screws to secure
the CURRENT to the junction box.
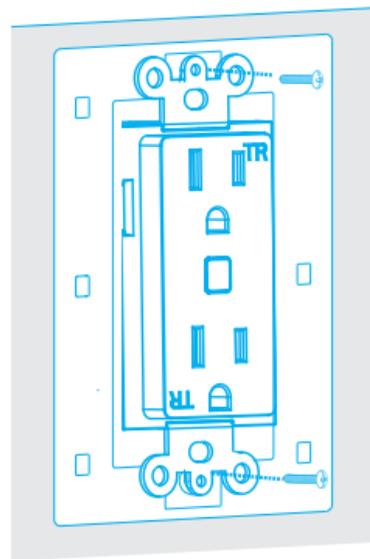

STEP 4

B
Use the two B screws provided to secure the faceplate bracket to the CURRENT

STEP 5
Restore power by turning the breaker back on

STEP 6
Once power is connected,the blue indicator light will blink to indicate that CURRENT is ready to connect to Wi-Fi.
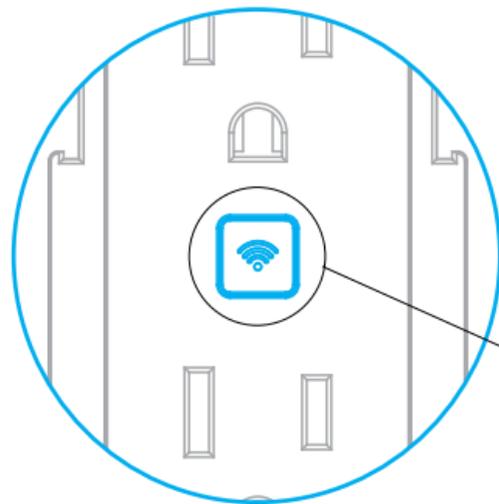

Blinking fast: Ready for Easy Mode
Blinking slow: Ready for AP Mode
Solid: Device power on

How do I reset the device and what does the blinking light mean?
Reset CURRENT by pressing and holding the reset button for 3 seconds until the indicator light is flashing rapidly.
- Reset one time (press and hold) to reach Easy mode
  (Fast blinking blue, 2x per second)
- Reset again (press and hold) to reach AP Mode
  (Slow blinking blue, every 3 seconds)

STEP 5
The Geeni app will connect to
CURRENT.

NOTE: Geeni can't connect to 5GHz networks.

Frequently Asked Questions

1. Can I share with family and friends?
Yes, you can share access to CURRENT and any other Geeni device. In the Geeni app, press the "Profile" button and click on "Device Sharing" to give or revoke sharing permissions. In order to share, the other user should already have downloaded the Geeni app and registered an account.

2. Can I group multiple Geeni devices together?
Yes, you can group multiple same-type devices by room, location, or however else you want. The same devices can be in multiple groups. For example, if you create a group for "Bedroom" and another group for "Entire House," your Bedroom lights can be included in both groups. From your main device list, click on one of the devices you want to group, press the "•••" button on the top right for advanced settings, and click "Create Group." You'll be able to name a new group and choose which devices you'd like to group together.
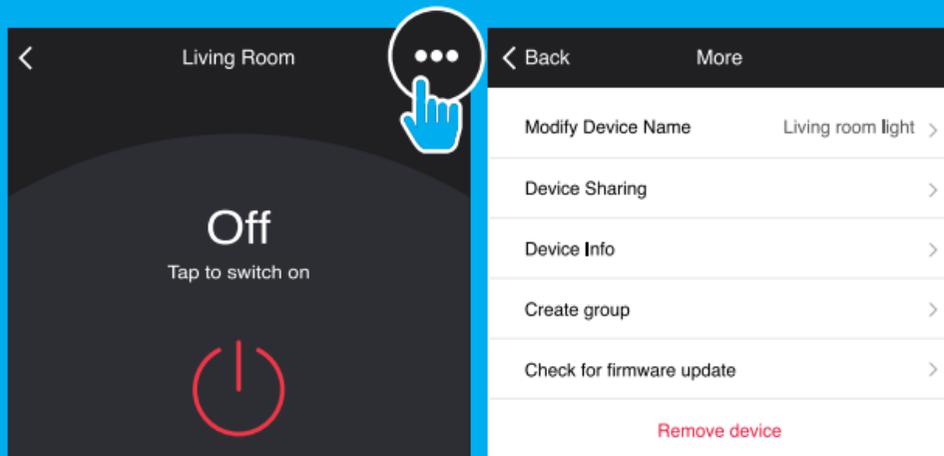

3. How many devices can I control?
Each outlet in CURRENT can be controlled individually. In addition, Geeni's app can control an unlimited amount of devices in an unlimited amount of locations. Your router may have a limit of how many devices can be connected to one router.

4. My Geeni device has a funny name. How do I rename it?
From your main device list, click on one of the devices you want to rename, press the "•••" button on the top right for advanced settings, and click "Modify Device Name" (or "Modify Group Name"). You'll then be able to choose a more familiar name. To rename a particular outlet, click the small pencil icon next to its name.

5. What should I do if the device appears offline or is unreachable?
Make sure your Wi-Fi router is online and in range, and check that you have the latest Geeni functionality by clicking "Check for firmware update" in your device settings. If power is connected but CURRENT is not responding, hold down the Restart button to cycle the fuse and give CURRENT a jump start.

6. What's the wireless range?
The range of your home Wi-Fi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.

7. If my Wi-Fi/Internet goes down, will Geeni still work?
Geeni products need to be connected to Wi-Fi in order to use them remotely.

Troubleshooting

Can't connect to Wi-Fi?
Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are any Internet connection problems. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

Reset the device

Reset CURRENT by pressing and holding the button for 3 seconds until the indicator light is flashing rapidly.
- Reset one time (press and hold) to reach Easy mode (Fast blinking blue, 2x per second)
- Reset again (press and hold) to reach AP Mode (Slow blinking blue, every 3 seconds)

System Requirements

• Mobile device running iOS® 9 or higher or Android™ 4.1x or higher
• Existing 2.4GHz Wi-Fi network (not compatible with 5GHz Wi-Fi networks)
• Existing outlet box; the box should be more than 2 inches deep
• Geeni app
IMPORTANT: Please consult a licensed electrician if you are unfamiliar with electrical installations.

Technical Specifications

• Input: 100V-130V, 60HZ
• Single Output 15A Max / outlet
• Total Output 15A Max

FCC Notice:
This device complies with Part 15 of the FCC Rules. Operation is subject to the two following conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

Important Information:
Before installing, read and follow all precautions, including the following:
CAUTION: RISK OF ELECTRIC SHOCK OR FIRE
CURRENT must be installed and used in accordance with the National Electric Code. Please consult a licensed electrician if you are uncomfortable or unfamiliar with electrical work. Disconnect power before installing or modifying this product.
CAUTION: Suitable for indoor use only.

Support:
If you encounter any issues, please call (888) 232-3143 (Toll Free) or email support@mygeeni.com for help. Support is available seven days a week.
