

# **Dog Cooling Mat User Manual**

## **1. Introduction**

Welcome to the Dog Cooling Mat user manual. This guide will provide you with detailed instructions on how to properly use, maintain, and store your dog cooling mat to ensure your pet enjoys a comfortable and relaxing experience.

## **2. Product Overview**

The dog cooling mat is designed to provide a cool and comfortable resting surface for your pet, especially during hot summer days. It features an advanced waterproofing treatment, non-toxic and safe material, and an anti-slip design to keep your pet cool, dry, and secure.

## **3. Setup**

Unpack the cooling mat and place it on a flat surface. Ensure the mat is free from any debris or dirt before use. The mat is designed to be used indoors, in a pet-friendly environment.

## **4. Using the Mat**

- Place the mat in a comfortable and secure area for your pet to rest, such as a cage, car seat, or sleeping bed.
- Allow your pet to approach and explore the mat on its own. Some pets may take a few minutes to get accustomed to the new surface.
- The mat provides a cool touch that helps regulate your pet's body temperature. Your pet can rest on the mat for extended periods of time.
- Monitor your pet's behavior and comfort level while using the mat. If your pet seems uncomfortable or agitated, remove the mat and consult a veterinarian.

## **5. Maintenance**

- Clean the mat regularly to maintain its cooling effect and freshness. Remove any dirt, debris, or pet hair using a damp cloth or soft brush.
- If the mat becomes soiled or stained, you can machine wash it in cold water with a gentle detergent. Avoid using bleach or harsh chemicals.
- After washing, hang the mat to dry in a cool, ventilated place. Do not use a dryer or iron to dry the mat.
- Store the mat in a dry, clean place away from direct sunlight and excessive heat. This will help maintain the cooling effect and prolong the lifespan of the mat.

## **6. Safety Precautions**

- Keep the mat away from sharp objects or rough surfaces that could damage the material.

- Avoid using the mat outdoors or in areas exposed to direct sunlight for extended periods of time. This could affect the cooling effect and durability of the mat.
- Do not allow your pet to chew or ingest any part of the mat. Although it is made from non-toxic material, it is not meant for consumption.
- If the mat becomes damaged or torn, discontinue use immediately and replace it with a new one.

Thank you for choosing our dog cooling mat. We hope your pet enjoys a comfortable and relaxing experience with this product.
