

**Klean-Strip® Liquid Sandpaper** is a water-based, non-flammable formula that permanently deglosses surfaces. It is much easier than sanding to help new finishes adhere to old finishes. Works on paint, varnish, enamel, lacquer, polyurethane and stain and is great for kitchen cabinets, wood moldings and door facings.

**DIRECTIONS FOR USE:** **1.** Wear chemical splash goggles. Shake well. Use full strength to saturate a coarse, lint-free cloth. Apply pressure and rub surface in a circular motion. Fold and re-saturate cloth frequently to prevent re-depositing of soils. Kitchens and areas with heavy grease or wax build-up may require cleaning with TSP or a TSP substitute. **2.** Apply new coating anytime after surface is dry.

**HELPFUL TIPS:** Keep container closed when not in use. People with sensitive skin should wear chemical-resistant gloves. Product will leave a slight residue that can be painted over. Do not use on freshly finished surfaces.

**DISPOSAL:** Dispose of in accordance with federal, state and local regulations.

**CAUTION: EYE IRRITANT.** Contains Dibasic Esters and Glycol Ether. Avoid contact with eyes, skin and mucous membranes. Do not swallow. Use only with adequate ventilation.

**FIRST AID – IF SWALLOWED,** immediately call the Poison Control Center (1-800-222-1222), hospital emergency room or physician for instructions. **IN CASE OF EYE CONTACT,** immediately flush with water, remove any contact lens, continue flushing with water for at least 15 minutes, then get immediate medical attention. **IN CASE OF PROLONGED SKIN CONTACT,** immediately wash with soap and water. If irritation persists, get medical attention.

**KEEP OUT OF REACH OF CHILDREN.**
