

Door Stoppers for Wall User Manual

Introduction:

Welcome to the user manual for our premium door stoppers for wall! These versatile silicone rubber protectors are designed to safeguard your walls from scratches, dents, and loud impacts caused by door knobs, furniture, and more. With their easy installation and durable construction, they are the perfect addition to any home.

Product Features:

- **Large 3.15-inch Size:** Provides ample coverage to protect your walls from door knob damage.
- **Noise Reduction:** High-quality silicone rubber absorbs impact noise, ensuring a peaceful environment.
- **Strong Adhesive Backing:** Sticks securely to various surfaces without drilling, including wood, drywall, cement, ceramic, marble, glass, and more.
- **Easy Installation:** Simply clean the surface, peel off the adhesive backing, and press firmly onto the desired location.
- **Versatile & Durable:** Also works as a wall protector from furniture, chair wall protector, and wall hole cover.
- **Eco-Friendly & Non-Toxic:** Made from premium silicone rubber, safe for your family and the environment.

Installation Instructions:

Prepare the Surface: Ensure the surface you intend to install the door stopper on is clean, dry, and free from dust, grease, or any other contaminants. Use a dry cloth to wipe it down.

Peel Off Adhesive Backing: *Carefully peel off the adhesive backing from the door stopper. Avoid touching the adhesive surface directly with your fingers to prevent contamination.*

Position & Press: *Place the door stopper on the desired location on the wall, making sure it is aligned correctly. Firmly press down on the door stopper to ensure it adheres securely to the surface. Hold for a few seconds to allow the adhesive to set.*

Repeat as Needed: *If you are installing multiple door stoppers, repeat steps 1-3 for each one.*

Care & Maintenance:

- *Wipe clean with a damp cloth as needed. Do not use harsh chemicals or abrasive materials that may damage the silicone surface.*
- *Avoid exposing the door stoppers to extreme temperatures or direct sunlight for prolonged periods, as this may affect their adhesive properties.*

Note:

- *Test the adhesive on an inconspicuous area of the wall before installing to ensure compatibility with your surface material.*
- *If the door stopper needs to be removed, gently peel it off from the wall. Adhesive residue can be removed with a suitable adhesive remover or by scraping gently with a plastic scraper.*

Conclusion:

Our door stoppers for wall are designed to provide long-lasting protection for your walls, while also enhancing the aesthetics of your home. With their easy installation,

noise reduction capabilities, and versatile uses, they are a must-have accessory for any household. Enjoy the peace of mind that comes with knowing your walls are well-protected!
