

ECOFIRE FIRE STARTER

Instruction and User Care Guide

Follow all instructions and safety precautions related to your products for fireplace, firepit and grill

Arrange the fire starter under the fire logs or charcoal.

Light the built-in EasyWick for easy, even, and controlled burn for maximum burn time.

Always check and manage your fire regularly and never leave a fire unattended.

- **NEVER USE FLAMMABLE LIQUIDS TO IGNITE THE FIRE STARTER.**
- **ALWAYS KEEP IT AWAY FROM CHILDREN.**
- **Artisan and traditional hand-made:** It is normal for small pieces of material to come off of the fire logs during shipping and transport. This does not affect the product's integrity, quality, or performance.
- **100% Non-toxic materials:** Contains wood, wax, and cotton.
- **Perfect fire starter for wood burning, fireplace, bonfire, grill, and camping.**
- **Stable under normal use and storage conditions.** In case of emergency, extinguish the fire log by using a UL dry chemical fire extinguisher, or carefully apply water, sand, or wet towel.

Carbon Monoxide Hazard: Do not use for indoor heating or cooking unless ventilation is provided for exhausting fumes. Toxic fumes may accumulate and can kill you. Store away from open flames and moisture.

California Proposition 65 Warning: The combustion (burning) of this product, like other cooking methods, produces carbon monoxide and other substances known to the State of California to cause cancer, reproductive harm or other congenital defects.
