

Use and Care Manual

Product Overview

This portable table fan (White, ABS material, 6.2"D x 6.2"W x 2.3"H, 9 ounces) features a brushless copper motor, 3-speed adjustment, 180° rotation, and built-in 3600mAh rechargeable battery. It supports USB/battery power, free-standing installation, and is suitable for indoor/outdoor use.

Charging Instructions

1. Connect the included USB cable to the fan's USB port and a 5V power source (charger, PC, power bank). 2. A charging indicator light turns on during charging; it turns off when fully charged (follow device prompts). 3. Disconnect the cable after charging. Fully charged, it works 8-24 hours (varies by wind speed). 4. Optimized motherboard and battery extend working hours.

Usage Steps

1. Power On/Off: Press the touch/push button to turn on/off. 2. Speed Adjustment: Short-press the button repeatedly to switch low/medium/high speeds. 3. Rotation Adjustment: Manually adjust the fan head to achieve 180° rotation for multi-angle airflow. 4. Placement: Use as a free-standing fan on a flat surface; ensure stability during use.

Placement & Usage Tips

1. Suitable for indoor (bedroom, office, dorm) and outdoor use; avoid heavy rain or humid environments. 2. Place on a stable, flat surface to prevent tipping. 3. The fan operates quietly (low noise level) for undisturbed rest and work. 4. It's lightweight and portable, easy to carry in a bag for outdoor events.

Cleaning & Maintenance

1. Turn off and disconnect power before cleaning. Wipe the fan body with a dry or slightly damp cloth. 2. Regularly remove dust from the 3 blades with a soft brush to maintain airflow efficiency. 3. Store in a dry, cool place when not in use; avoid high temperatures and direct sunlight. 4. The brushless motor ensures stable performance and long service life.

Important Notes

1. Keep fingers and hair away from rotating blades to avoid injury. 2. Keep away from children to prevent accidental operation. 3. Do not disassemble the fan to avoid damaging internal

components. 4. Do not immerse the fan in water; wipe dry if splashed with water.
