

DAP® PLASTIC WOOD® Professional Wood Filler is a high-performance, solvent-based wood filler that hardens to give a repair surface that is **3X stronger***. It looks and acts like real wood and can be sanded, cut, drilled, planed, stained, varnished, painted or lacquered. For use on furniture, cabinets, windows, doors, paneling, molding & other wood surfaces. *Than competitive product.

INSTRUCTIONS: Surface to be filled must be clean, dry & unglazed. Stain wood before filling. Squeeze filler into defect & press firmly into place w/tool. Allow to dry before sanding & finishing. Dries in approx. 15 minutes. For larger & deeper repairs, apply 2 or more thin layers, allowing wood filler to dry between applications. Avoid contact w/ surrounding surfaces. May be painted or stained immediately after sanding. Applications must be coated prior to moisture exposure. Clean tools immediately after use with mineral spirits. Dried material must be scraped or sanded away. Do not use mineral spirits to clean skin.

QUESTIONS?/¿PREGUNTAS? Call/Llame al **1-888-DAP-TIPS** or visit/o visite **dap.com** & click on/y pulse en "Ask the Expert."
