PLANT CARE

1

Remove and recycle packaging from the plant.

2

Read plant tag for care and to find the best place to plant.

3

Dig a hole twice as wide and just as deep as the plant's container.

4

Remove the plant from its container.

5

Place the plant in the hole, level with the surface.

6

Add soil and fertilizer.

7

Pat down soil around the plant.

8

Water until the soil is moist.

Plant with Proven Winners Premium All Purpose Potting Soil.

Mix in Proven Winners Time Release Fertilizer at planting time and reapply every spring.

For annuals, also use Proven Winners Water Soluble Fertilizer throughout the season.

Water well to keep soil consistently moist — not dry or soaking wet.

... Enjoy watching your plant grow! ...
