5. Making sure the ball-end of the poles is on top, prop up your canopy, remove the black rubber caps from the poles, and insert the bottom of the poles either directly into the ground, or screw them into the anchors.

You shouldn't need to wash your canopy in most circumstances, but simply shake it free of sand at the end of the day and make sure it's fully dry before packing it away. If you do encounter a situation where you need to wash your canopy, follow the same guidelines as washing a bathing suit/swimsuit. Wash it in the gentle cycle, and hang it up to dry. Do not bleach or tumble-dry this product.

WARRANTY INFORMATION

LIMITED WARRANTY ON HIKE CREW™ SUN SHADE CANOPY

THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE.

WE WARRANT THAT DURING THE WARRANTY PERIOD, THE PRODUCT WILL BE FREE FROM DEFECTS IN MATERIALS AND WORKMANSHIP.

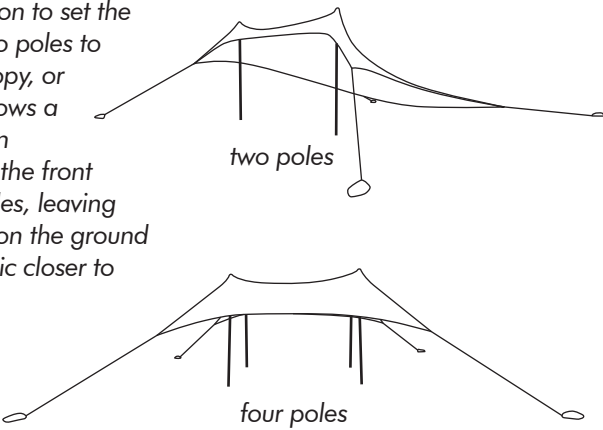

SAFETY PRECAUTIONS

- Always position your sun shade canopy so that the wind blows into the opening.
- Do not attempt to use this canopy on solid ground/firmly packed earth. This is designed to function on soft surfaces like beaches or soft earth/grass.
- Make sure to fully stretch fabric out when setting up the shade for optimum performance.

SETUP INSTRUCTIONS

1. Stretch the canopy fully out on the ground and straighten the sandbags at the corners.
2. Fill each sandbag as full with sand as possible and pull the drawstrings tight. The fuller with sand that the bags are, the better it will hold the canopy in place.
3. Connect the poles to the canopy, one section at a time. Make sure the rounded end of the pole is facing the sky, and the other end is facing the ground.
4. Insert the four pole anchors into the ground in a rough determination of where you want the poles to go. Only use the pole anchors on soft earth, as hard earth will break them.

Note: You have the option to set the canopy up with only two poles to created an angled canopy, or all four poles, which allows a more open space. When using two poles, attach the front of the fabric to both poles, leaving the rear two sandbags on the ground and the rear of the fabric closer to the ground, creating an angled shape.
