

# SAFETY DATA SHEET

## 1. Identification

|                                                        |                                                                     |  |  |
|--------------------------------------------------------|---------------------------------------------------------------------|--|--|
| Product identifier                                     | BEHR DYNASTY® Exterior Semi-Gloss Enamel Paint – Medium Base        |  |  |
| Other means of identification                          |                                                                     |  |  |
| Product code                                           | 5654                                                                |  |  |
| Recommended use                                        | Architectural Coating                                               |  |  |
| Recommended restrictions                               | Uses other than the recommended use.                                |  |  |
| Manufacturer/Importer/Supplier/Distributor information |                                                                     |  |  |
| Supplier                                               | Behr Process LLC<br>1801 E. St. Andrew Place<br>Santa Ana, CA 92705 |  |  |
| Telephone                                              | 714-545-7101                                                        |  |  |
| Emergency telephone                                    | +1 760 476 3962<br>+1 866 519 4752                                  |  |  |
| Access code                                            | 335213                                                              |  |  |

## 2. Hazard(s) identification

### Hazards for the product as sold

Physical hazards Not classified.

### Hazards for the product as sold

|                |                     |             |
|----------------|---------------------|-------------|
| Health hazards | Sensitization, skin | Category 1A |
|                | Carcinogenicity     | Category 1B |

### Hazards for the product as sold

OSHA defined hazards Not classified.

### Label elements

Signal word Danger

Hazard statement May cause an allergic skin reaction. May cause cancer.

### Precautionary statement

**Prevention** Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist/vapors. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection.

**Response** If skin irritation or rash occurs: Get medical advice/attention. If on skin: Wash with plenty of water. If exposed or concerned: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

**Storage** Store locked up.

**Disposal** Dispose of contents/container in accordance with local/regional/national/international regulations.

### Hazard(s) not otherwise classified (HNOC)

No additional hazards are known to be associated with the expected conditions of use at the time of publication. This document does not address hazards that may arise from uses not reasonably anticipated by the manufacturer.

Supplemental information None.

## 3. Composition/information on ingredients

### Mixtures

| Chemical name    | CAS number | %       |
|------------------|------------|---------|
| Titanium dioxide | 13463-67-7 | 10 - 30 |

| Chemical name                         | CAS number | %         |
|---------------------------------------|------------|-----------|
| 2-Butoxyethyl benzoate                | 5451-76-3  | 0.5 - 1.5 |
| Diuron                                | 330-54-1   | 0.1 - 1   |
| Hindered amine light stabilizer       | 41556-26-7 | 0.1 - 1   |
| Hindered amine light stabilizer       | 82919-37-7 | 0.1 - 1   |
| 2-Methyl-2H-isothiazol-3-one          | 2682-20-4  | 0 - 0.1   |
| 5-Chloro-2-methyl-2H-isothiazol-3-one | 26172-55-4 | 0 - 0.1   |

**Composition comments** The manufacturer has claimed the exact percentage as trade secret under the OSHA Hazard Communication Standard.

#### 4. First-aid measures

|                                                                               |                                                                                                                                                                                                                  |
|-------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>                                                             | Move to fresh air. If not breathing, give artificial respiration. Call a physician if symptoms develop or persist.                                                                                               |
| <b>Skin contact</b>                                                           | Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.                                 |
| <b>Eye contact</b>                                                            | Rinse with water. Get medical attention if irritation develops and persists.                                                                                                                                     |
| <b>Ingestion</b>                                                              | Rinse mouth. Get medical attention if symptoms occur.                                                                                                                                                            |
| <b>Most important symptoms/effects, acute and delayed</b>                     | May cause an allergic skin reaction. Dermatitis. Rash. Prolonged exposure may cause chronic effects.                                                                                                             |
| <b>Indication of immediate medical attention and special treatment needed</b> | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.                                                                                           |
| <b>General information</b>                                                    | IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse. |

#### 5. Fire-fighting measures

|                                                                      |                                                                                               |
|----------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>                                  | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).                                   |
| <b>Unsuitable extinguishing media</b>                                | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| <b>Specific hazards arising from the chemical</b>                    | During fire, gases hazardous to health may be formed.                                         |
| <b>Special protective equipment and precautions for firefighters</b> | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| <b>Fire fighting equipment/instructions</b>                          | Move containers from fire area if you can do so without risk.                                 |
| <b>Specific methods</b>                                              | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| <b>General fire hazards</b>                                          | No unusual fire or explosion hazards noted.                                                   |

#### 6. Accidental release measures

|                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions, protective equipment and emergency procedures</b> | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.                                                                                                                                                                    |
| <b>Methods and materials for containment and cleaning up</b>               | <p>Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.</p> <p>Small Spills: Clean surface thoroughly to remove residual contamination.</p> <p>Never return spills to original containers for re-use. Put material in suitable, covered, labeled containers. For waste disposal, see section 13 of the SDS. Prevent entry into waterways, sewer, basements or confined areas. Absorb spillage with suitable absorbent material.</p> |
| <b>Environmental precautions</b>                                           | Avoid discharge into drains, water courses or onto the ground.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## 7. Handling and storage

### Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Persons susceptible to allergic reactions should not handle this product.

### Conditions for safe storage, including any incompatibilities

Store locked up. Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

### Occupational exposure limits

#### US. OSHA Table Z-1 Permissible Exposure Limits (PEL) for Air Contaminants (29 CFR 1910.1000)

| Components                        | Type | Value    | Form        |
|-----------------------------------|------|----------|-------------|
| Titanium dioxide (CAS 13463-67-7) | PEL  | 15 mg/m3 | Total dust. |

#### US. ACGIH Threshold Limit Values (TLV)

| Components                        | Type | Value     | Form                           |
|-----------------------------------|------|-----------|--------------------------------|
| Diuron (CAS 330-54-1)             | TWA  | 10 mg/m3  |                                |
| Titanium dioxide (CAS 13463-67-7) | TWA  | 2.5 mg/m3 | Respirable finescale particles |
|                                   |      | 0.2 mg/m3 | Respirable nanoscale particles |

#### NIOSH. Immediately Dangerous to Life or Health (IDLH) Values, as amended

| Components                        | Type | Value      |
|-----------------------------------|------|------------|
| Titanium dioxide (CAS 13463-67-7) | IDLH | 5000 mg/m3 |

#### US. NIOSH: Pocket Guide to Chemical Hazards

| Components            | Type | Value    |
|-----------------------|------|----------|
| Diuron (CAS 330-54-1) | TWA  | 10 mg/m3 |

### Biological limit values

No biological exposure limits noted for the ingredient(s).

### Appropriate engineering controls

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

### Individual protection measures, such as personal protective equipment

**Eye/face protection** Wear safety glasses with side shields (or goggles).

#### Skin protection

**Hand protection** Wear appropriate chemical resistant gloves.

#### Skin protection

**Other** Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

#### Respiratory protection

If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection. Use a positive-pressure air-supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection.

#### Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

### General hygiene considerations

Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

## 9. Physical and chemical properties

### Physical state

Liquid.

### Form

Liquid.

### Color

White.

### Odor

Slight.

|                                                                 |                                                                                 |
|-----------------------------------------------------------------|---------------------------------------------------------------------------------|
| <b>Melting point/freezing point</b>                             | Property has not been measured.                                                 |
| <b>Boiling point or initial boiling point and boiling range</b> | Property has not been measured.                                                 |
| <b>Flammability</b>                                             | Not applicable.                                                                 |
| <b>Upper/lower flammability or explosive limits</b>             |                                                                                 |
| <b>Explosive limit - lower (%)</b>                              | Not available.                                                                  |
| <b>Explosive limit - upper (%)</b>                              | Not available.                                                                  |
| <b>Flash point</b>                                              | Property has not been measured.                                                 |

| Mobility in soil                                                             | No data available for this product.                                                                              |                                     |
| Other adverse effects                                                        | The product contains volatile organic compounds which have a photochemical ozone creation potential.             |                                     |

### 13. Disposal considerations

|                                              |                                                                                                                                                                                                                                                                                |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Disposal instructions</b>                 | Dispose of this material and its container to hazardous or special waste collection point. Incinerate the material under controlled conditions in an approved incinerator. Dispose of contents/container in accordance with local/regional/national/international regulations. |
| <b>Local disposal regulations</b>            | Dispose in accordance with all applicable regulations.                                                                                                                                                                                                                         |
| <b>Hazardous waste code</b>                  | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.                                                                                                                                                                 |
| <b>Waste from residues / unused products</b> | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner.                                                                                            |
| <b>Contaminated packaging</b>                | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.                                                                     |

| Not listed.                                                           |                                                                                                                |

**SARA 311/312 Hazardous chemical** Yes

**Classified hazard categories** Respiratory or skin sensitization  
Carcinogenicity

**SARA 313 (TRI reporting)**  
Not regulated.

#### Other federal regulations

**Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List**

2-Butoxyethyl benzoate (CAS 5451-76-3)

**Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)**

Not regulated.

**Safe Drinking Water Act (SDWA)** Not regulated.

#### US state regulations

**US. Massachusetts RTK - Substance List**

Diuron (CAS 330-54-1)

Titanium dioxide (CAS 13463-67-7)

**US. New Jersey Worker and Community Right-to-Know Act**

2-Butoxyethyl benzoate (CAS 5451-76-3)

Diuron (CAS 330-54-1)

**US. Pennsylvania Worker and Community Right-to-Know Law**

2-Butoxyethyl benzoate (CAS 5451-76-3)

Diuron (CAS 330-54-1)

Titanium dioxide (CAS 13463-67-7)

**US. Rhode Island RTK**

Diuron (CAS 330-54-1)

Titanium dioxide (CAS 13463-67-7)

## 16. Other information, including date of preparation or last revision

**Issue date** 10-August-2022

**Revision date** 11-September-2025

**Version #** 03

**HMIS® ratings** Health: 2\*  
Flammability: 0  
Physical hazard: 0

**List of abbreviations** IATA: International Air Transport Association.  
IBC Code: International Code for the Construction and Equipment of Ships Carrying Dangerous Chemicals in Bulk.  
LD50: Lethal Dose, 50%.  
MARPOL: International Convention for the Prevention of Pollution from Ships.  
PEL: Permissible Exposure Limit.
