

CONCRETE RESTORATION KIT

FAQ

Does the Concrete Surface need to be cleaned?

Yes. Clean concrete surface and remove all oils and other debris. Rinse and allow to dry thoroughly before applying Like-Nu.

How long does the product need to dry before walking on it?

Answer 1: Depending on the outside temperature, we recommend allowing the product to cure and dry for 30 to 60 minutes.

Answer 2: Depending on the outside temperature:

- 80°F and above as fast 10 min
- 60° and above up to 1 hour
- Below 60° up to 90 minutes

Do I need to wear a mask when working with this product?

We recommend always using a mask, gloves and eye safety glasses when using any concrete products.

What happens if the product drips on my working surface?

If product drips on your working surface, simply use a medium gauge paint roller or sponge pad to smooth out the drips and lightly respray.

How long does the Like-Nu mix last?

Once Mixed, Like-Nu will last approximately 2 hours depending on the outside temperature.

How many coats of Like-Nu should I spray on my concrete?

Depending on the condition of your concrete we recommend 2 coats.

How long do I have to wait before spraying another coat of the Like-Nu Product?

Let each coat dry 30 minutes unless above 80°.

Is Like Nu an overlay or epoxy?

No Like Nu is modified cement that permeates the surface allowing air and moisture to breathe

Can I spray Like-Nu on to a damp or wet surface?

No. Your concrete surface must be dry.

Do I have to trowel the Like-Nu product on?

No trowel is needed with the Like-Nu product.

Do I have to Roll the Like-Nu product on?

You can roll the Like-Nu product. We recommend rolling heavily sprayed areas and drip marks the sprayer may cause.

Can I add more water to the Like-Nu product to make it a lighter color?

No please see instructions.

Does the outside weather temperature effect the Like-Nu Spray and drying time?

The warmer the weather, the faster the Like-Nu product will dry.

Can I order Like-Nu in bulk?

On pallet size orders of 24 or more buckets, please contact us.

Where can I find the MSDS documents and other technical documents?

Please contact us for more details.

Do I need to wear protective clothing when spraying the Like-Nu product ?

We recommend always using a mask, gloves, eye safety glasses and protective clothing when using any concrete products.
