

LED Bathroom Vanity Mirror

Instructions & Assembly Guide

1. Safety Precautions

- Read all instructions before installation.
- Ensure the mirror is installed by a qualified person if connecting to hardwired power.
- Do not install near water sources without proper waterproof protection.
- Always disconnect power before servicing the mirror.
- Avoid using harsh chemicals when cleaning. Use a soft, damp cloth.
- Do not attempt to disassemble internal LED components.

2. Package Contents

- LED Bathroom Mirror
- Mounting Hardware (screws, anchors, brackets)
- Power Adapter / Connector
- User Manual & Warranty Card

3. Installation Instructions

3.1 Wall Preparation

- Select a dry, stable wall surface suitable for mounting.
- Ensure electrical access is available (plug-in or direct connection).
- Use a level to mark the mounting location.

3.2 Mounting Options

- Option A: Plug-in Installation
 1. Mount brackets to the wall using supplied hardware.
 2. Hang the mirror on the brackets.
 3. Connect the power cord to a nearby outlet.
- Option B: Hardwired Installation
 1. Turn off the circuit breaker.
 2. Connect mirror wires to home wiring using the supplied connector.
 3. Mount the mirror on the wall brackets.
 4. Turn on the circuit breaker to test functionality.

4. Operating Instructions

4.1 Smart Touch Panel

- Power Button: Tap to turn LED lights on/off.
- Brightness Adjustment: Press and hold to increase or decrease brightness.
- Anti-Fog Function: Tap to turn on/off independently.

4.2 Memory Function

- The mirror remembers the last used light brightness and settings.

5. Maintenance

- Clean with a soft, damp cloth. Avoid abrasive cleaners.
- Ensure no water penetrates the back panel or LED components.
- Periodically check wall brackets and screws for stability.

6. Troubleshooting

Problem | Solution

LED not turning on | Check power connection or breaker; ensure plug or hardwire is secure

Anti-fog not working | Verify touch panel activation; allow 1-2 minutes for heating

Flickering light | Ensure connections are tight; check voltage compatibility

7. Warranty & Support

- Standard manufacturer warranty applies.
- Contact customer service for installation guidance or replacement parts.
