

Woodworking clamps and cast jaw bar clamps

The original BESSEY® malleable cast iron bar clamp is available in two designs. Either with the tried-and-true wooden handle, or the modern BESSEY 2K handle. The high quality 2K composite handle with comfort insert allows you to complete tasks more effectively and with less hand fatigue.

1 Integrated anti-slip system

Maximum safety with the integrated anti-slip system. A set screw molded into the sliding arm interlocks with the serration on the rail.

2 Reinforced jaw and sliding arm

Corrugated malleable cast iron fixed jaw and sliding arm generate powerful, rigid clamping.

3 High quality profiled rail

The BESSEY® profiled rail from our own German steel plant has been optimized for clamps. The profile acts against torsional forces.

4 BESSEY® smooth running spindle

Smooth running spindle with Acme thread allows for more clamping with less effort. Replaceable pressure plates.

5 BESSEY® comfort handle

The TG series offers both the tried-and-true wooden handle or 2K composite handle with comfort insert.

Light duty, zinc die cast bar clamp, LM series

Small, light weight and made of quality durable material.

Clamping Capacity	Throat Depth	Clamping Force	Approx. Weight
