

## **PRIMEGUARD PLUS® AND PRIMEGUARD® SCREW LIMITED WARRANTY**

### **What Is Covered**

**PrimeSource Building Products Inc.** warrants that the coating on its PrimeGuard Plus® screws will protect the screw from rust for the serviceable life of the project when used in a typical residential exterior environment. The coating must not have been compromised during installation nor any harsh chemicals used subsequent to the installation. PrimeSource also warrants that the screws will be free from defects in workmanship and materials for the same period. Screw breaking is only considered a factory defect if the tensile strength of the claimed screws is found to be below the stated tensile strength of the screw. This warranty is extended only to an original purchaser who installed the product at a residence (not commercial premises) in the 50 United States. It is not transferable.

If a defect is found to exist, PrimeSource Building Products will at its option, either replace the product with a similar screw or with an upgraded screw, such as a stainless steel screw. This warranty does not cover the costs of labor to remove a defective product or component or install any replacement product or component.

This warranty shall not apply to defects or damages caused by mishandling, improper installation, alteration, removal or re-installation, improper or unreasonable use, maintenance or storage, use of incompatible accessories, accident, impact by foreign objects, fire, acts of God or normal wear and tear.

This same warranty is extended to the PrimeGuard® screw but is limited to 10 years from the time of installation.

No person is authorized to extend or otherwise modify this Warranty.
