

Product name:
Drywall Shims

Short product description

Ideal for floating butt-joints and framing irregularities. Save time by shimming drywall to allow greater inset at joints. Packaging has an easy open end for convenient “pull-out-as-you-need-them” access.

Product description

- Shims save time by shimming drywall to allow greater inset at joints.
- Ensures maximum bonding of tapes with drywall.
- Easy open packaging

Applications

- Floating butt-joints
