

28 Inches Long

Super-long tong allows a safe distance from open fire

Heavy-Duty Stainless-Steel Construction

Made to last from rust-proof, heat-tempered stainless steel with a black oxide finish. The comfort-grip handles are cast from high temperature glass-filled nylon.

Weighted & Balanced

Designed to allow for lifting heavy logs while maintaining balance and preventing fatigue.

Storage

The power handle folds away and locks the unit closed for compact storage.

Looks great racked with other fireplace tools.

Power Leverage Handle

Rotates 180°
Creates amazing leverage

Heat Shield

Keeps hands safe from open fire heat conduction

US & International Patents Pending

Heavy-Duty Tong Jaws

Serrated teeth line both tong jaws all the way down to the tip to securely grab firewood

Spring-Action Assist

Creates tremendous mechanical power & unparalleled gripping action for both large logs and small kindling

Rear handle Heat Shield

Protects hands from dangerous heat & flames

Back Hook

For pulling, prodding and raking

Comfort-Grip Handles
