

Dear Valued Customer,

In response to your Material Safety Data Sheet request for a product sold by CCI (Coleman Cable Inc.) and its subsidiaries we find our products meet the definition of an article exemption according to the Occupational Safety and Health Administration's Hazard Communication Standard (OSHA), 29 CFR 1900.1200 (b) (5).

The standard lists three criteria that must be met to qualify as an article:

1. A manufactured item: which is formed to a specific shape or design during manufacture.
2. Which has end use function(s) dependent in whole or in part upon its shape or design during end use.
3. Which does not release, or otherwise result in exposure to a hazardous chemical under normal conditions of use.

Therefore, we take the position that Material Safety Data Sheets are not required for our products.

Although in general, we do recommend using protective equipment such as gloves and eye protection along with safe handling practices to avoid any potential incidents.

If you have any questions concerning this matter, please call me at 1-800-323-9355 ext. 2422.

Regards,

A handwritten signature in blue ink, appearing to read "Mark A. Rogers", with a long horizontal flourish extending to the right.
