

Freestanding Towel Rack Installation Guide

Important Notes Before Installation

- Check product dimensions (31.5"L x 12.8"W x 35.8"H) to ensure fit for your space.
- The product weighs 8.8 pounds; assemble on a flat, stable surface to avoid tipping.
- Keep all small parts away from children during assembly.

Package Contents

- 1 x Main metal frame
- 3 x Storage shelves
- 6 x Hooks (3 for each side)
- 4 x Anti-slip foot pads
- Installation tools and hardware kit (included)

Step-by-Step Installation

1. **Prepare the base:** Take the main frame and attach the 4 anti-slip foot pads to the bottom corners. Ensure they are securely fastened to prevent wobbling on uneven surfaces.
2. **Install storage shelves:** Align the 3 shelves with the pre-drilled holes on the frame. Use the included screws and tools to fix each shelf in place (bottom, middle, and top positions).
3. **Attach side hooks:** Screw 3 hooks onto each side of the frame (total 6 hooks) using the provided hardware. Tighten until they are firm to hold bath sponges or small items.
4. **Final check:** Gently shake the rack to confirm stability. Adjust foot pads if needed to ensure it stands evenly.

Usage Tips

- The 6.29-inch gap between front and rear bars fits oversized towels; ensure proper ventilation for quick drying.
- Suitable for bathrooms, bedrooms, laundry rooms, or pool areas (rust-resistant powder-coated finish).
- Do not exceed the rack's weight capacity; avoid placing heavy objects on shelves.
