1/4 IN x 25 FT POWER DRUM AUGER

How to Operate:

- Can be operated manually or with drill
- Press the quick-release cable lock to release the cable
- Feed cable into the drain to reach blockage
- Press the quick-release cable lock to secure the cable
- Spin cable in counter-clockwise direction to dislodge debris
- To Use with a drill: attach power drill to shank on back of the Auger for added power but use lowest RPM

Press the quick-release cable lock to release the cable

Feed cable into the drain to reach blockage

Press the quick-release cable lock to secure the cable

When using a Drill to spin the Auger, use the lowest RPM mode and gently spin cable to dislodge debris

WARNING

Wear appropriate protective equipment including safety glasses and leather gloves.
